1. Organisation Overview:

Name: Luyawethu Student Residence

History:

Luyawethu Student Residences is a small, privately-owned student accommodation provider located close to Vaal University. The business was established to address the growing need for safe, affordable, and convenient housing options for university students in the area. With only four rooms available, Luyawethu offers a personalised and homely living environment, distinguishing itself from larger, impersonal student housing complexes. The name "Luyawethu" reflects the vision of creating a welcoming and supportive home away from home for students (Luyanda and Owethu, the owners).

Mission:

Is to provide secure, comfortable, and affordable student accommodation that fosters academic success and personal well-being (Luyanda and Owethu, the owners).

Vision:

Is to become the preferred student residence choice for Vaal University students by consistently delivering exceptional living experiences and building a strong community of academic excellence (Luyanda and Owethu, the owners).

Target Audience:

The primary target audience is undergraduate and postgraduate students enrolled at Vaal University. The business appeals to students who value a quiet, secure, and well-maintained living environment within walking distance of the campus (Luyanda and Owethu, the owners).

2. Website Goals and Objectives

Goals:

- To establish a professional online presence to attract prospective student tenants.
- To showcase the property's amenities and features through high-quality visuals.
- To streamline the enquiry and booking process.
- To make easier for students to find residency

Objectives:

- To increase online visibility and searchability among Vaal University students.
- To reduce vacancy rates by attracting more enquiries and applications.
- To build credibility and trust with students and their parents.

Key Performance Indicators (KPIs):

- Number of website visitors per month.
- Number of online enquiry submissions.
- Conversion rate from enquiry to signed lease.
- Reduction in vacancy periods.

3. Current Website Analysis**Current Status:**

Luyawethu currently does not have a website. The business relies on word-of-mouth referrals, campus flyers, and social media posts to attract tenants. This limits its reach and visibility.

Strengths of Current Approach:

- Low-cost marketing through social media.
- Personal referrals build trust.

Weaknesses:

- There are no online presence means students cannot easily find the property.
- Lack of professional branding reduces credibility.
- There is one way to showcase rooms with photos or virtual tours and that is WhatsApp.
- Manual enquiry process is inefficient.
- No online booking or application system.

Areas for Improvement:

- Develop a professional, user-friendly website.
- Implement an online enquiry and booking system.
- Include high-quality images and detailed room descriptions.

4. Proposed Website Features and Functionality.

SITE MAP

Essential Pages:

PAGE	PURPOSE
Homepage (index.html)	Brief introduction, Call-to-action, Navigation menu.
About Us (about.html)	Organisation history, mission, vision, and values.
Rooms (rooms.html)	Detailed information on each room, pricing, and amenities.
Enquiry (enquiry.html)	Form for prospective tenants to enquire about availability and book viewings.
Contact (contact.html)	Contact details, location map, and enquiry form.

Functionality:

- Responsive design for mobile and desktop viewing.
- Image gallery showcasing rooms and common areas.
- Contact form with validation.
- Google Maps integration showing location near Vaal University.

5. Design and User Experience

Colour Scheme:

Modern and professional palette:

- Primary: Deep Navy Blue — conveys trust, professionalism, and stability.

- Secondary: Bright Blue — adds energy and approachability.

- Accent: Light Grey — clean backgrounds for readability.

- Call-to-Action: Green — draws attention to enquiry buttons.

Typography:

- Headings: Montserrat (clean, modern, bold).
- Body Text: Open Sans (legible, professional, web-friendly).

Layout and Design Approach:

- Clean, minimalist layout with ample white space.
- High-quality hero image of the property on the homepage.
- Card-style layout for room listings.
- Clear navigation menu at the top of every page.

User Experience Considerations:

- Simple and intuitive navigation.

- Fast-loading images and content.
- Mobile-friendly responsive design.
- Clear call-to-action buttons for enquiries.

Low-Fidelity Wireframes:

6. Technical Requirements

Hosting and Domain:

- Domain: www.luyawethu.co.za
- Hosting: Shared hosting plan (approx. R100–R150/month) or free hosting (GitHub Pages for development).

Programming Languages and Frameworks:

- HTML5 — page structure and content.
- CSS3 — styling, layout, and responsive design.
- JavaScript — form validation and interactive elements.

Tools:

- Visual Studio Code — code editor.
- Git and GitHub — version control.
- Canva / Figma — wireframing and design mockups.

8. Budget

ITEM	ESTIMATED COST
Domain Name (luyawethu.co.za)	R150/YEAR
Web Hosting (shared hosting)	R1,200/YEAR
SSL Certificate (free with hosting)	R0
Design/Wireframing Tools (Canva/Figma)	FREE
Code Editor (VS Code)	FREE
Version Control (GitHub)	FREE
Stock Images (Unsplash/Pexels free)	FREE
Total Estimated Annual Cost	R1,350

2. Organisation Overview

Name: StudyBuddy Peer Tutoring Network

History:

StudyBuddy is a student-led, non-profit initiative established by a group of high-achieving Vaal University students who recognised the academic struggles faced by their peers, particularly first-year students transitioning from high school to university. The organisation was founded on the belief that students learn best from their peers and that academic support should be accessible, affordable, and free from judgment. Starting as a small WhatsApp group,

StudyBuddy has grown into a structured network of volunteer tutors offering support across multiple faculties.

Mission

To empower university students to achieve their full academic potential through accessible, peer-led tutoring and support.

Vision

To create a supportive academic community where every student can succeed, regardless of their background or academic challenges.

Target Audience:

The primary target audience is Vaal University students, with a particular focus on first-year students. The organisation also serves students across all faculties who require additional academic support in specific subjects.

2. Website Goals and Objectives**Goals:**

- Create a central, accessible platform for students to find tutoring support.
- Streamline the process of connecting students with tutors.
- Raise awareness of the organisation's services.

Objectives:

- Increase the number of students using the service by 50% within six months.
- Recruit more volunteer tutors from all faculties.
- Reduce the administrative burden of managing requests manually.

Key Performance Indicators (KPIs):

- Number of student registrations per month.
 - Number of tutoring sessions booked per month.
 - Tutor retention and recruitment rates.
 - Student satisfaction ratings (feedback surveys).
-

3. Current Website Analysis

Current Status:

StudyBuddy currently does not have a website. The organisation operates primarily through WhatsApp groups, campus notice boards, and word-of-mouth. This informal approach has limitations.

Strengths of Current Approach:

- Low-cost and easy to set up.
- Immediate communication through WhatsApp.

Weaknesses:

- Difficult to manage tutor-student matching manually.
- Limited reach — only students in existing groups are aware.
- No central repository for study resources.
- Unprofessional image may affect credibility.
- No way to track usage or measure impact.

Areas for Improvement:

- Build a professional website to centralise operations.
- Implement an automated tutor booking system.
- Create a resource library for study materials.
- Add a volunteer application form

4. Proposed Website Features and Functionality.

Essential Pages:

PAGE	PUROSE
Homepage (index.html)	Hero section, welcome message, call-to-action, navigation menu.
About Us (about.html)	Organisation history, mission, vision, team members.
Services (services.html)	Overview of tutoring services, subjects offered by faculty, and workshops.

Enquiry (enquiry.html)	Form for students to request a tutor OR volunteer to become a tutor.
Contact (contact.html)	Contact details, location of tutoring sessions (campus locations), and enquiry form.

Functionality:

- Responsive design for all devices.
- Tutor application form for volunteers.
- Student enquiry form for requesting tutoring.
- Google Maps integration showing tutoring locations on campus.

5. Design and User Experience

Colour Scheme:

Warm, friendly, and approachable palette:

- **Primary:** #2D3748 (Dark Slate) — professionalism and trust.
- **Secondary:** #4FD1C5 (Teal) — energy, growth, and approachability.
- **Accent:** #EDF2F7 (Light Grey) — clean backgrounds.
- **Call-to-Action:** #F6AD55 (Warm Orange) — draws attention.

Typography:

- **Headings:** Poppins (clean, modern, friendly).
- **Body Text:** Open Sans (highly readable and professional).

Layout and Design Approach:

- Clean, student-friendly design with clear sections.
- Friendly imagery of students studying and collaborating.
- Easy-to-navigate layout with clear calls-to-action.

User Experience Considerations:

- Simple navigation for quick access to services.
- Accessible design for all students.
- Fast-loading pages.

Low-Fidelity Wireframes:

(Please insert hand-drawn or digital wireframes showing the layout of the homepage, services page, and contact page.)

6. Technical Requirements

Hosting and Domain:

- Domain: www.studybuddy.org.za
- Hosting: Shared hosting or free GitHub Pages during development.

Programming Languages and Frameworks:

- HTML5 — page structure.
- CSS3 — styling and responsive design.
- JavaScript — form validation.

Tools:

- Visual Studio Code — code editor.
- Git and GitHub — version control.
- Canva / Figma — wireframing.
